

## Denis Fedosov–Ledovskikh

hey @ denisfl.ru

I have been making web-services for more than fifteen years. This amount of time scares even me. But I love what I do and I am ready for new horizons.

## Work experience

### Frontend Developer at SimplexMobility

2020 – present

My areas of responsibility are implementing a design system and building UI. Helped to migrate from rest API to GraphQL, as a way to document API and share it. As a result, we migrated from old Bootstrap html components to modern and flexible user interface based on VueJS, improved speed of delivering features to production.

### Frontend Developer at MediaInvest Company

Feb 2019 – Feb 2020

Maintained codebase of a dashboard for a number of regional news portals. Worked on improving user interface of the dashboard. Added computable css-variables themes for flexible customization of the visual part of online news titles.

### Frontend Developer at Transinet GmbH

Nov 2016 – Feb 2019

Maintained old codebase, helped to migrate from legacy code on Backbone and Marionette to Vue/Vuex. Divided a monolith application into microservices before it was mainstream.

### Lead of frontend development team at WADA.vn

Nov 2015 – Nov 2016

Developed the project architecture. Supported and developed of new features, permanent improved UX based on A/B tests results. Provided optimization for Opera Mini.

### UI Developer at Whisk (part of Samsung Next)

Jan 2016 – May 2016

Part-time job. Helped to build new project version based on ReactJS, PostCSS, Webpack.

## Early expierence

2006 – 2014

It has been so long ago, I am sure this experience is important but company names are not relevant at this moment. I started as webmaster (hope you remember the term), participated in the full development cycle, grew up to be a project manager and got back to development.

## Education

### Volgograd State University

Master, Physics and Informatics

Sep 2001 – Jun, 2006

Thank you for reading!
