Denis Fedosov-Ledovskikh

hey @ denisfl.ru

I have been making web-services for more than fifteen years. This amount of time scares even me. But I love what I do and I am ready for new horizons.

Work experience

Frontend Developer at SimplexMobility

`2020 — present`

My area of responsibility is implementing a design system and updating UI. Helped to migrate from rest API to GraphQL, as an instrument to share API outside and create documentation. As a result, we migrated from old Bootstrap html components to modern and flexible user interface based on VueJS, improved the speed of delivering features to production.

Frontend Developer at MediaInvest Company

`Feb 2019 — Feb 2020`

Maintained codebase of a dashboard for a number of regional news portals. Work on improving user interface of the dashboard. Added computable css-variables themes for flexible customization of the visual part of online news titles.

Frontend Developer at Transinet GmbH

`Nov 2016 — Feb 2019`

Maintained old codebase, helped to migrate from legacy code on Backbone and Marionette to Vue/Vuex. Divided a monolith application into microservices before it was mainstream.

Lead of frontend development team at WADA.vn

`Nov 2015 — Nov 2016`

Developed the project architecture. Support and development of new features, permanent improvement UX based on A/B tests results. Provided optimization for Opera Mini.

UI Developer at Whisk (part of Samsung Next)

`Jan 2016 — May 2016`

Part-time job. Helped to build new project version based on ReactJS, PostCSS, Webpack.

Early expierence

`2006 — 2014`

It has been so long ago, I am sure this experience is important but companies names are not relevant at this moment. I started as webmaster (hope you remember the term), participated in the full development cycle, grew up to be a project manager and got back to development.

Education

Volgograd State University

`Master, Physics and Informatics`
`Sep 2001 — Jun, 2006`

Thank you for reading!
